

Pure Perfection aftercare advice

We are passionate about sharing our knowledge so you can receive the best out of your treatment.

The perfect eye enhancements

HD brows, LVL, Lash tinting, Brow tinting, Brow waxing, Express lash, Semi lash.

We encourage that a patch test is performed every treatment as our bodies are always changing.

It is essential that you should discuss with your therapist what is your desired look you want to create.

No heat or chlorinated treatments for 24 hours.

Keep the areas clean and free from product for 24 hours.

Conditioning serums are applied during treatment times as this will aid lash conditioning.

Refrain from tweezing or trimming in between treatments.

Rebook your next appointment to manage the best out of your treatment.

Inform you therapist of any reactions so we can update your records.

If you are experiencing any discomfort please seek medical advice.

Do not pull or pick your lashes, have them removed professionally as we care for your lashes.

Avoid getting the lashes wet for the first 24 hours.

Avoid rubbing the eye area after lashes are applied or LVL treatment.

We will look forward to seeing you on your next visit

Kind regards PP team
